

## Customer Testimonial

### Quinplex Food Machinery Lubricant LE4025 Oven Conveyer Bearings

- **Oven Conveyer Bearings lasting 7 years with using LE4025**

#### Company Profile:

Hubbard Foods Ltd of Auckland, manufacture high quality breakfast cereal, developed by the company founder Dick Hubbard. These products are sold locally and exported to many overseas countries.

#### Application:

The conveyors carry hot cereal from the oven at approx 170°C and are then washed down daily by high pressure cold water, one extreme to the other.

#### Results:

The conveyor rollers need to be resurfaced yearly due to wear however the conveyor bearings with Quinplex LE4025 Foodgrade grease are lasting 7 years.

Thank you to Danny Drake, Hubbard Foods Engineering Maintenance Manager, 14 year service.

#### Danny's Comments :

**“Reliability and maximum uptime is #1, we don't have time or surplus machinery for break downs, during peak production we run 24/7”**

**Other LE products used:** Multilec LE6805- Wolverine Gearbox, #T705  
Almaplex LE1275 – High temperature circulation fan bearings.  
Almaplex LE1299 – Wolverine flaking roll spherical roller bearings
