

Customer Testimonial

1995 Toyota Dyna Motorhome

- More power up hill
- Reduced Engine Wear
- Smooth Transmission changes
- Extended Drain intervals

LE8800 Monolec® Ultra Engine Oil
LE1150 Monolec® Syn Multi-Vehicle ATF
LE703 Monolec® Gear Lubricant

Nature of business:

Touring around New Zealand

Application:

3.700ltr 4 cylinder diesel engine, 4 speed transmission, Truck Diff.

Challenge:

Truck felt tired. Transmission had a judder and sharp, harsh gear changes.

Jason's Comments :

"I was sceptical as to the improvements we would notice, however the difference was instant and amazing. The truck instantly ran smoother and quieter. The gear changes with the transmission were incredible! I was concerned we might be looking at a transmission overhaul at some stage in the near future because of juddering and sharp harsh gear changes. Now it's like a new transmission, so smooth. There is a hill about 6kms from our house that we have to drive up whenever we head away the fastest we had managed to get up the hill previously was 44kmh and slowest was 38kmh after the oil change we flew up the hill at 52kmh. Cheers Chris"

"I can't say enough about this product, It is everything LE promised & more".
