

Product Update

Xport Bluetooth Lubricators

Use perma[®] CONNECT App with Your Mobile Device for Convenient Remote Monitoring of Xport[®] Bluetooth[®] Lubricators

Benefits

- Easily manage and maintain all Star Vario and Ultra Bluetooth lubricators.
- Safely, reliably and remotely monitor any Bluetooth lubricators in hard-to-reach or dangerous areas.
- Conveniently view all details about these lubrication points on your mobile device and computer.
- Use perma CONNECT app at any time on your mobile device to:
 - » Switch the lubricator on and off.
 - » Change the discharge period or trigger additional discharge (purge).
 - » View error messages, such as over pressure, empty LC, or deviating temperature.
 - » Locate lubrication systems via a signal and display lubricator history.

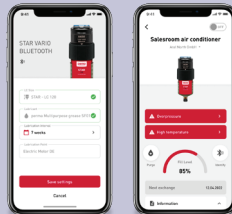

Why perma CONNECT?

Bluetooth Connection

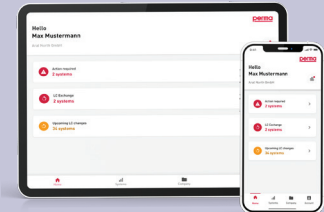

- Configure, control & analyze via remote Bluetooth connection

Remote Control

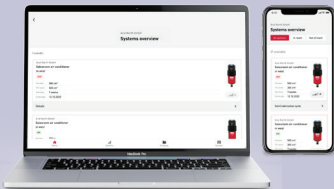

- No direct access necessary
- Configuration can always be adapted
- Start / Stop purge via Bluetooth
- Several devices can be operated at the same time

Remote Maintenance

- Increase of workspace safety
