

## PORTABLE TRANSFER KITS FOR OIL

### PORTABLE PNEUMATIC 208L DRUM KIT: FLX-2914

Mobile pneumatic oil dispensing kit, for 208 l – drums, with hose reel and heavy duty trolley equipped with large wheels suitable also for the use on rough surfaces. Consisting of:

- Pneumatic double acting 3:1 - oil pump, product # FLX-2020
- Plastic bung adapter for the fixation of pumps on drums, product # FLX-4340
- Heavy duty trolley with 4 wheels and grate, product # FLX-4389
- Open hose reel, product # FLX-9016
- 15 m – rubber hose 1/2", product # FLX-28715
- 1 m – rubber connection hose 1/2", product # FLX-28701
- Electronic flow meter for oil, with control gun, rubber protection guard, trigger guard, rigid outlet, automatic anti-drip nozzle and inlet swivel 1/2" BSP (M), product # FLX-2826
- Pressure regulator with manometer, condensation water separator and lubricator, product # FLX-7150

Weight Dimensions (L-W-H) (mm) 790x900x1400

Weight: 61 Kg

---

### PORTABLE ELECTRIC 208L DRUM KIT: FLX-2918

Mobile electric oil dispensing kit, for 208 l – drums, with hose reel and heavy duty trolley equipped with large wheels suitable also for the use on rough surfaces. Consisting of:

- Electric self-priming 230VAC gear pump, product # FLX-6122
- Control box with push button control and electric connection cable
- Dual electronic pressure control switch that starts the pump once the control gun is activated and stops it again due to the pressure increase in the circuit once the gun is closed
- Electronic flow meter for oil, with control gun, rubber protection guard, trigger guard, rigid outlet, automatic anti-drip nozzle and inlet swivel 1/2" BSP (M), product # FLX-2826
- Heavy duty trolley with 4 wheels and grate, product # FLX-4389
- Open hose reel, product # FLX-9016
- 3 m – rubber hose 1/2", product # 28703
- 40mm suction tube in galvanised steel 950mm long with connections and 1" BSP foot valve, product # FLX-2204
- 1.5 m rubber suction hose 1" connections, product # FLX-2205
- Pressure regulator with manometer, condensation water separator and lubricator, product # FLX-7150

Weight Dimensions (L-W-H) (mm) 790x900x1400

Weight: 47 Kg

## STATIONARY TRANSFER KITS FOR OIL

### OIL DISPENSING BAR: FLX-2302

Wall-mounted dispensing bar suitable for oil and antifreeze. Equipped with 1 spring operated dispensing tap with splash guard filter and drain valve for drip tray. Inlet connections 3/4" BSP(F). The unit is prepared for the installation of 2 more spigots. Additional spring operated dispensing tap is product # FLX-2301.

Weight Dimensions (L-W-H) (mm) 500x300x500

Weight: 11 Kg

---

### PNEUMATIC OIL DISPENSING KIT: FLX-2980C

Stationary pneumatic oil dispensing kit for 208 l – drums. Consisting of:

- Pneumatic double acting 3:1 - oil pump, product # FLX-2020
  - Plastic bung adapter for the fixation of pumps on drums, product # FLX-4340
  - 3 m – rubber hose 1/2", product # FLX-28703
  - Oil control gun with 1/2" BSP (M) inlet swivel, rigid outlet and automatic anti-drip nozzle, product # FLX-2105
  - Pressure regulator with manometer and condensation water separator, product # FLX-7180
- 

### PNEUMATIC OIL DISPENSING KIT: FLX-2982

Stationary pneumatic oil dispensing kit with electronic oil flow meter, for 208 l – drums. Consisting of:

- Pneumatic double acting 3:1 - oil pump, product # FLX-2020
  - Plastic bung adapter for the fixation of pumps on drums, product # FLX-4340
  - 3 m – rubber hose 1/2", product # FLX-28703
  - Electronic flow meter for oil, with control gun, rubber protection guard, trigger guard, rigid outlet, automatic anti-drip nozzle and inlet swivel 1/2" BSP (M), product # FLX-2826
  - Pressure regulator with manometer and condensation water separator, product # FLX-7180
-

#### **PNEUMATIC OIL DISPENSING KIT: FLX-2992**

Stationary pneumatic oil dispensing kit, for 208 l – drums. Consisting of:

- Pneumatic double acting 3:1 - oil pump, product # FLX-2020
- Plastic bung adapter for the fixation of pumps on drums, product # FLX-4340
- Open hose reel, standard series, product # FLX-9016
- 15 m – rubber hose 1/2", product # FLX-28715
- 2 m – rubber connection hose 1/2", product # FLX-28702
- Electronic flow meter for oil, with control gun, rubber protection guard, trigger guard, rigid outlet, automatic anti-drip nozzle and inlet swivel 1/2" BSP (M), product # FLX-2826
- Pressure regulator with manometer and condensation water separator, product # FLX-7180

#### **OPTIONAL PRODUCT # FLX-2992/10**

- Wall mounted gun holder with drip tray, product # FLX-9784
- Pivoting wall bracket for hose reel, product # FLX-9767 (only suitable for single installations)

#### **DUEL 208L DRUM DISPENSING BAR: 8545**

Mobile electric oil dispensing kit, for 208 l – drums, with hose reel and heavy duty trolley equipped with large wheels suitable also for the use on rough surfaces. Consisting of:

- Electric self-priming 230VAC gear pump product # FLX-6122
- Control box with push button control and electric connection cable
- Duel electronic pressure control switch that starts the pump once the control gun is activated and stops it again due to the pressure increase in the circuit once the gun is closed
- Electronic flow meter for oil, with control gun, rubber protection guard, trigger guard, rigid outlet, automatic anti-drip nozzle and inlet swivel 1/2" BSP (M) product # FLX-2826
- Heavy duty trolley with 4 wheels and grate, product # FLX-4389
- Open hose reel, product # FLX-9016
- 3 m – rubber hose 1/2" product # FLX-28703
- 40mm suction tube in galvanised steel 950mm long with connections and 1" BSP foot valve product # FLX-2204
- 1.5 m rubber suction hose 1" connections product # FLX-2205
- Pressure regulator with manometer, condensation water separator and lubricator, product # FLX-7150

Weight Dimensions (L-W-H) (mm) 790x900x1400

Weight: 47 Kg

### 208L DRUM DISPENSING STATION: FLX-8548

Stationary pneumatic oil dispensing kit, for 208 l – drums. Consisting of:

- Pneumatic double acting 3:1 - oil pump, product # FLX-2020
  - Plastic bung adapter for the fixation of pumps on drums, product # FLX-4340
  - Open hose reel, standard series, product # FLX-9016
  - 15 m – rubber hose 1/2", product # FLX-28715
  - 2 m – rubber connection hose 1/2", product # FLX-28702
  - Electronic flow meter for oil, with control gun, rubber protection guard, trigger guard, rigid outlet, automatic anti-drip nozzle and inlet swivel 1/2" BSP (M), product # FLX-2826
  - Pressure regulator with manometer and condensation water separator, product # FLX-7180
  - *Drum not included*
- 

### DUEL 208L DRUM DISPENSING STATION: FLX-8549

Stationary pneumatic oil dispensing kit, for 208 l – drums. Consisting of:

- Tank Service Base for 2 drums of 208 l, product # FLX-8533, with metal mounting rack
  - 2 pcs. of pneumatic double acting 3:1 - oil pumps, product # FLX-2020
  - 2 pcs. of plastic bung adapters for the fixation of pumps on drums, product # FLX-4340
  - 2 pcs. of open hose reels, standard series, product # FLX-9016
  - 2 pcs. of 15 m – rubber hoses 1/2", product # FLX-28715
  - 2 pcs. of 2 m – rubber connection hoses 1/2", product # FLX-28702
  - 2 pcs. of electronic flow meters for oil, with control gun, rubber protection guard, trigger guard, rigid outlet, automatic anti-drip nozzle and inlet swivel 1/2" BSP (M), product # FLX-2826
  - 2 pcs. of pressure regulators with manometer and condensation water separator, product # FLX-7180
  - *Drums not included*
-

#### IBC DISPENSING KIT: FLX-8208

Stationary pneumatic oil dispensing kit, for the installation on the side of 1000 l – IBC –tanks. Consisting of:

- Pneumatic single acting 5:1 - oil pump, product # FLX-2075
- Plastic bung adapter for the fixation of pumps on drums, product # FLX-4340
- Pressure regulator with manometer, product # FLX-7200
- Electronic flow meter for oil, with control gun, rigid outlet, automatic anti-drip nozzle and inlet
- swivel 1/2" BSP (M), product # FLX-2626
- 3 m – rubber hose 1/2", product # FLX-28703
- Suction hose 1" with connection adapter for IBC - tanks
- Metal mounting bracket, product # FLX-9785
- *IBC tank not included*
- **OPTIONAL PRODUCT #: 8209**
- Same components as product # FLX-8208 but with pneumatic 6:1 - Tapir series single acting oil pump with delivery of 32 l/min.

#### IBC DISPENSING KIT: FLX-8210

Stationary pneumatic oil dispensing kit, for the installation on the side of 1000 l – IBC –tanks. Consisting of:

- Pneumatic double acting 3:1 - oil pump, product # FLX-2020130
- Plastic bung adapter for the fixation of pumps on drums, product # FLX-4340
- Open hose reel, standard series, product # FLX-9016
- 15 m – rubber hose 1/2", product # FLX-28715
- 1,5 m – rubber connection hose 1/2", product # FLX-287015
- Electronic flow meter for oil, with control gun, rubber protection guard, trigger guard, rigid outlet, automatic anti-drip nozzle and inlet swivel 1/2" BSP (M), product # FLX-2826
- Pressure regulator with manometer and condensation water separator, product # FLX-7180
- Gun holder with drip tray, product # FLX-9784
- Metal mounting frame, product # FLX-9785
- *IBC tank not included*
